

Establishing the Circular Economy-based livestock sector through collaborative Educational and Research activities (CEER)

<https://site.nord.no/ceer/>

Announcement of Master thesis support and exchange students

The current livestock sector faces increased pressure to identify and utilize alternative and climate-friendly feeding resources in light of the rising human population and adverse climate change impacts. Our project entitled ***Establishing the Circular Economy-based livestock sector through collaborative Educational and Research activities (CEER; Project number: 2021/10345)*** aims to contribute toward self-sufficiency in the animal feed sector via joint educational and research activities between Norway and Nepal. The CEER (<https://site.nord.no/ceer/>) is a circular bioeconomy-based project led by Nord University (<https://www.nord.no/en>), Norway, in collaboration with Agriculture Forestry University (AFU) (<http://afu.edu.np/>), Nepal and Kathmandu University (<https://ku.edu.np/>), Nepal. For details, please visit the project webpage: <https://site.nord.no/ceer/>.

The CEER project is looking for two AFU students from M.Sc.Ag. (Agri-business Management and Entomology) for master's thesis support and exchange to Nord University (Business School/Faculty of Biosciences and Aquaculture), Norway. Students who are willing to conduct research in the CEER project thematic area will be eligible.

Application requirements:

1. All academic transcripts from SLC to Bachelor
2. Research concept note
3. Curriculum Vitae (CV)
4. Recommendation letter from supervisor

Students from the marginalized communities such as females, disabled, minority and disadvantaged groups, etc. are highly encouraged to apply.

Application deadline: 22nd August, 2023

Submit your application to ceer@afu.edu.np
